The Write Stuff

For the first time, a pen brings together power, writing quality and technological intelligence. Néo-Classique Président is the first and only luxury pen that combines a writing instrument and an ultra-modern USB key with a capacity of 4GB. This new pen hides its technological secret under an outline that remains clear and elegant, a real trademark that renders S.T. Dupont branded pens as unique as they are timeless. These operations require a lot of dexterity and precision, and like a precious jewel, it's laid into its black lacquered case. Available at Abu Shakra.
